

I oppose any changes to the current FCC indecency standards that would allow television and radio stations to broadcast expletives and nudity on the public airwaves, even if brief or fleeting.

The Supreme Court has confirmed the FCC's authority to enforce policies regarding expletives and nudity, especially during times when children are likely to be watching or listening. Relaxing the current policy would not serve the public interest and I urge the FCC to reject all proposals that would allow for the broadcast of expletives and nudity on FCC-licensed stations

The forcing of viewing and listening to this type of vulgarity only supports and increases the amount of de-sensitizing of the American people to exploitation. Exploitation that leads to, and encourages, sex trafficking, pornography, and the objectification of human beings as simple sex objects for our use. The more we de-sensitize our nation, the further down we will spiral until we are no longer a great nation looked at by other nations as a place of hope and opportunity. We will become no better than 3<sup>rd</sup> world nations where rape and sex trafficking is done in the open and without shame.

Do not allow yourselves to be used as a pawn in the further de-sensitizing and demoralization of this great nation. DO NOT approve this proceeding.
